

# Going back to a Shoe Shop

COVID-19 cases are going down and more people are getting vaccinated.

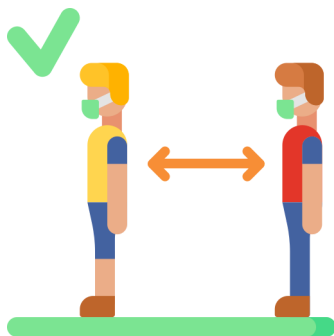

This means that non-essential shops like shoe shops have opened up again.

The last shoes that I got are now quite small. I need to get a new pair.

I go to the shop with my Dad to get my feet measured and get a new pair of shoes.

When we get to the shop there is a queue. We join the queue and remember to stay 2m apart from the people in front of us.

When we get into the shop, a nice shop assistant comes over to help us find what we are looking for.

# Going back to a Shoe Shop

Because my feet have grown, I need to get them measured again.

I don't like getting my feet measured, but I know that if I stay still it won't take very long.

Once my feet are measured I get to pick out a new pair of shoes.

After we pay for the shoes, we go home. I'm so excited to wear my new shoes.
