

Using Public Transport Again

Because of COVID-19, we stopped using public transport. So, we drove everywhere we went.

COVID-19 cases are going down, and more people are getting vaccinated. This means that it's now safer to use public transport again.

Today I am going with my mum to Dublin City Centre. We decide to get the bus.

When we get on the bus, there are new signs everywhere telling us where to sit.

Using Public Transport Again

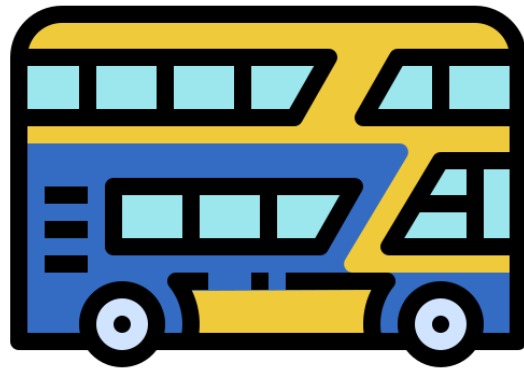

We choose our seats and make sure to stay in our seats until our stop.

I get to press the button before our stop.

I remember to use hand sanitiser after pressing the button to stop the spread of COVID-19.

It can be really fun getting the bus. I'm looking forward to taking it more often now.
